MEMORANDUM FOR THE RECORD

SUBJECT: DoD Subpoena Power Proposal -  
Conversation with Office of Management and Budget

1. On March 14, 1985, I spoke with Brandon Blum, Legislative Attorney, Office of Management and Budget. I asked the status of the DoD subpoena proposal legislation.

2. Mr. Blum indicated that several agencies had expressed opposition to it and others had been dragging their feet in the provision of their comments. This, coupled with the fact that it was not a high legislative priority for OMB, led Mr. Blum to conclude that the proposal would not move very fast if at all.

3. I thanked him for the information and asked him to let me know if it started to move again.
